TECHNICAL SKILLS

Web & Frontend

- TypeScript & JavaScript
- Next.js & React
- HTML5 & CSS3

Backend & Database

- Node.js & Express
- PostgreSQL & MySQL
- Prisma ORM & REST APIs

Infrastructure & Networking

- Linux (Ubuntu) & Docker
- MikroTik RouterOS & LAN
- Git & GitHub

Languages

- English (Professional Working Proficiency)
- Indonesian (Native)

WORK & PROJECT EXPERIENCE

Codaxiom | Full-Stack & Automation Developer (Founder) 2024 – Present | Jakarta, Indonesia

- Engineered a responsive SaaS dashboard and multi-tenant web platform with Next.js and PostgreSQL, providing business owners with live WhatsApp chat management, appointment booking, and product catalogs.
- Handled end-to-end cloud deployments using Docker and Caddy reverse proxy on Linux servers, integrating Midtrans Snap for secure online checkout and automated status updates.

National Computer Olympiad | Participant (Regional to Provincial) 2022 | Bukittinggi & Padang, Sumatera Barat

- Qualified at the Bukittinggi municipal selection round to represent the city at the provincial level.
- Competed in algorithms and computer science problem-solving at Politeknik Negeri Padang (PNP).

Bimtek Kominfo | Vocational Networking Trainee 2022 | Balai Kota Bukittinggi, West Sumatera

- Completed government-sponsored (Kominfo) technical training on computer networking fundamentals at Balai Kota Bukittinggi.
- Practiced IP subnetting, routing diagnostics, and basic network troubleshooting, passing the final assessment.

Golden.net | Network & Telecommunications Technician Intern 2021 | Sumatera Barat, Indonesia

- Assembled, crimped, and tested Cat5e/Cat6 Ethernet cables for local client installations.
- Assisted field technicians in configuring MikroTik routers and diagnosing physical connectivity issues.

EDUCATION

Information System in Bakrie University | 2023 - Present (7th Semester)

- Coursework focus: Database Engineering, Enterprise Information Systems, Web Development, and Spatial Data/GIS.
- Projects: Full-stack relational database systems and interactive mapping applications.

Vocational Highschool Pembina Bangsa, Sumatera Barat | 2020 - 2023

- Vocational focus: MikroTik RouterOS, Linux server configuration, TCP/IP networking, and hardware diagnostics.
- Graduated with honors in vocational competence.
